AÇIKLAMA

- ✓ Test hazırlanırken ÖSYM sorularına yaklaştırabilmek için son derece özen gösterilmiştir.
- ✓ Ayrıca soruları sınavlarda karşılaşılabileceğiniz yapılardan sormaya gayret etmekteyiz.
- ✓ ÜDS sınavların ilk 18 soruları;
 - kelime (4)
 - phrasal verb (2)
 - gramer (10)
 - preposition (2)

sorularını içermektedir. Bu testte hem bu kurala hem de soru sayılarına sadık kalınmıştır.

- ✓ Gerçek sınavda soru başına 2,25 dakika vaktiniz olmasına rağmen, bu testi çözerken sınavdaki psikolojik baskının dışarıda olmadığını varsayarak 25 dakikayı geçmemenizi öneririm.
- ✓ Bu test Remzi Hoca tarafından hazırlanmıştır ve tamamen özgündür.
- ✓ Önerileriniz ve görüşleriniz için remzi@remzihoca.com adresini kullanmanızı rica ederim.

Başarılar

1. Coral reefs, the most ----- of ecosystems, are also the most fragile.
 - A) proper
 - B) enormous
 - C) detrimental
 - D) diverse
 - E) compulsive

2. Designs of bridges ----- depending on the function of the bridge and the nature of the terrain where the bridge is to be constructed.
 - A) choose
 - B) vary
 - C) reach
 - D) erect
 - E) span

3. There exists a widespread ----- over human embryonic stem cell research that emanates from the techniques used in the creation and usage of stem cells.
 - A) controversy
 - B) process
 - C) condition
 - D) method
 - E) function

4. Textile chemical processing, ----- the pre-treatment processes require a highly sophisticated technology and engineering to achieve the well known concepts of "Right first time, Right every time and Right on time" processing and production.
 - A) extremely
 - B) reasonably
 - C) precisely
 - D) particularly
 - E) necessarily

 - A) will be / had come
 - B) is / came
 - C) was / has come
 - D) had been / would come
 - E) would be / might come

8. The first mechanical devices that ----- of as rockets ----- as steam-driven curiosities in Greece around the fourth century B.C.
 - A) can be thought / will be developed
 - B) had been thought / developed
 - C) were thought / are developed
 - D) would be thought / has developed
 - E) might be thought / were developed

9. If we ----- the clock of time back, each time these two competitors squared off, the same result -----.

- A) were to roll / would occur
- B) had rolled / has occurred
- C) rolled / will have occurred
- D) could have rolled / occur
- E) roll / will occur

10. Pluto ----- officially among the planets since it was discovered in 1930 orbiting beyond Neptune, but in 1992 an icy object ---- still farther from the Sun than Pluto.

- A) has been listed / was discovered
- B) was listed / has been discovered
- C) had been listed / was discovered
- D) is listed / will have been discovered
- E) must have been listed / is discovered

11. It has been argued that the carrying capacity - ----- Earth is significantly smaller than the demands placed ----- it by large numbers of human populations.

- A) on /about
- B) in / with
- C) over / off
- D) into / for
- E) of / on

12. Scientific American, the oldest continuously published magazine in the U.S., has been bringing its readers unique insights ----- developments in science and technology ---- more than 150 years.

- A) of / over
- B) about/ for
- C) into / around
- D) with / during
- E) through / in

13. ----- animals, fungi do not store energy in the form of glycogen.

- A) As
- B) Whereas
- C) Despite
- D) Unlike
- E) Though

14. ----- DNA is such a large molecule, a great deal of information can be contained.

- A) While
- B) Therefore
- C) Because
- D) In addition
- E) But

15. The orbits of the small bodies generally have both higher eccentricities and higher inclinations than ----- of the planets.

- A) that
- B) others
- C) any
- D) those
- E) these

16. ----- energy resources, especially fossil fuels, become strained, nuclear energy (despite its known shortcomings) must be considered as an alternative.

- A) Although
- B) As
- C) Still
- D) In case
- E) So that

17. Agricultural intensification does not necessarily have to be ----- ecological services.

- A) in excess of
- B) as for
- C) in the wake of
- D) in contrast to
- E) at the expense of

18. Rainforest countries are mostly developing countries ----- the treatment of natural resources is determined a lot more by immediate economic demands of their populations than by wildlife conservation imperatives.

- A) which
- B) whose
- C) in which
- D) that
- E) there
